1. Scope

This policy applies to all employees, contractors, consultants, and third parties who have access to organizational data, whether stored or transmitted through IT systems, servers, email (G Suite), laptops, mobile devices, or network infrastructure.

2. Purpose

The purpose of this policy is to establish guidelines for the proper and secure usage of organizational data within the IT environment. This ensures that data is accessed, processed, stored, transmitted, and disposed of in accordance with the principles of confidentiality, integrity, and availability.

3. Policy Statement

Devsinc's Data usage policy promotes responsible, ethical, and business-focused online activities, safeguarding the company's corporate environment against inappropriate content, breaches of statutory or other legal obligations and cybersecurity threats.

4. Objectives

1. To define acceptable use of data across IT systems and applications
2. To prevent unauthorized access, misuse, or modification of data.
3. To ensure compliance with legal, regulatory, and contractual obligations.
4. To maintain accountability and traceability of data usage.

5. Roles and Responsibilities

5.1 IT Department:

Implement and maintain data protection controls (e.g., Firewalls, EDR, MDM, Encryption).

- Monitor data usage and system logs to detect unauthorized activity.
- Ensure periodic backup and secure disposal of data.

5.2 Department Heads / POCs:

Approve access requests and ensure appropriate data classification.

5.3 Employees / Users:

1. Use data only for legitimate business purposes.
2. Refrain from sharing confidential data without authorization.
3. Immediately report any data breach or misuse.

6. Prohibited Use of Internet and Email

1. Using the internet and/or email services for downloading or distributing material in violation of copyright laws, such as movies, music, software, books, etc.
2. Using the internet and/or email services for downloading or distributing pornography or other sexually explicit materials.
3. Using the internet and/or email services to post or transmit any message or material that is defamatory, or discloses private or personal matters concerning any person or group.
4. Use of the internet and/or email for political purposes is prohibited.
5. Use of internet and/or email to send or store payment card information, i.e. credit card details etc.
6. Use of internet and/or email services to gamble.
7. Use of internet and/or email services in a way that could affect their reliability or effectiveness, such as distributing chain letters or spam.
8. Use of internet and/or email services to send unprotected sensitive, internal, or confidential information externally.
9. Use of internet and/or email services for running a personal or private business or website.
10. Use of internet and/or email services knowingly or carelessly distributing malicious code.
11. Use of internet and/or email to harass employees, vendors, customers, and others is prohibited.
12. Release of untrue, distorted, or confidential information (official) related to Devsinc or any of its departments is prohibited.

7. Website Blocking

The Devsinc IT department reserves the right to block access to websites and protocols deemed inappropriate for the corporate environment. Users may request unblocking by opening a ticket with every detail of what is needed and why it is needed, along with the cluster head approval/team lead approval and later subject to review by the IT department.

8. Administrative Access

Users with administrative rights are prohibited from altering or attempting to alter internet access settings or configurations without proper authorization. Any unauthorized changes may result in disciplinary action.

9. Security Alerts

Users are required to carefully read and respond to all security alerts presented by their internet browsers. If unsure about the legitimacy or implications of an alert, users must contact the IT department for guidance before proceeding and follow the reporting procedure as described below.

10. Reporting

If you receive any suspicious, spam, or phishing email or alert, **DO NOT open the email, and DO NOT click on the link or attachment**. Report it to the IT department and/or Information Security Office using the contact details below. Include the full headers displayed and a screenshot of the email or suspicious alert.

- **Slack:** it_helpdesk
- **MapleHR:** IT department
- **Extension Number:** 1009 (IT department)
- **Email ID**: itservices@devsinc.com

If you believe that your machine has been compromised or if the virus and/or malware scans turned up an infection, you should have it looked at by the IT department.

Escalation Matrix:

Please find the escalation matrix in case of internet/connectivity/ICT related complaints

Step	Action / Contact	Escalation If Unresolved	Suggested Time Frame
1	Report issue via #it_helpdesk or contact Hanan Sultan / Muhammad Ans/Danish/Ahmed.	Immediate	Within 30 minutes
2	Bushra Rabia, or Dawood Aslam	Escalate if still unresolved	Within 1–2 hours
3	Kamran Amjad	Final escalation	After 2 Hours

11. Monitoring and Enforcement

The use of internet and email are extremely valuable business tools. However, misuse of such facilities can have a detrimental effect on other users and potentially the public profile of the company.

Devsinc reserves the right to monitor email and internet usage for compliance with this policy.

Employees who do not adhere to this policy and are found to have violated it may be subject to disciplinary action from the HA Department, up to and including termination of employment.

12. Exception to Policy

It is imperative that all employees comply with this policy.
However, there are circumstances that fall outside the ability to comply with and/or conform to a policy. In such instances, an exception must be documented and approved.

Requests for exception must include:

1. A valid justification for use.

2. A risk analysis, compensating controls to manage risk, and technical reasons for the exception.

Requests for exceptions that create significant risks without compensating controls will not be approved.

13. Continual Improvement

The policy is updated and reviewed as part of the continual improvement process.

It will be monitored by senior management and reviewed annually or earlier if necessary.
