   3.1 Level 1- Confidential Information: 2
   3.2 Level 2- Internal Use Information: 2
4. Responsibilities for Clear Desk and Clear Screen Policy: 3
5. Enforcement and Review: 3

1. Purpose:

The purpose of this policy is to establish guidelines and procedures to ensure that all work areas are clear of Devsinc information, whether in electronic or paper form, classified as Level 1- Confidential or Level 2- Internal Use when the work area is unattended.

This shall reduce the risk of unauthorized access, loss, and damage to information during and outside normal working hours or when areas are unattended.

2. Scope and Policy Statement:

This policy applies to all team members of Devsinc to prevent unauthorized access and protect Devsinc information.

It protects Devsinc information stored in physical and electronic media and minimizes the risk of unauthorized access. Information is an asset that, like other important business assets, has value to Devsinc and consequently needs to be suitably protected.

Information in whatever form it takes or means by which it is shared or stored, should always be appropriately protected. Additionally, it helps prevent data breaches to maintain the company's reputation.

3. Definitions:

3.1 Level 1- Confidential Information:

Confidential information is information whose unauthorized use, access, disclosure, acquisition, modification, loss, or deletion could result in severe damage to Devsinc's team members, or clients. Financial loss, damage to Devsinc's reputation, and legal action could occur. Confidential information is intended solely for use within Devsinc and is limited to those with a "business need-to-know". Statutes, regulations, or other legal obligations or mandates protect much of this information.

3.2 Level 2- Internal Use Information:

Information that must be protected due to proprietary, ethical or privacy considerations. Although not specifically protected by statute, regulations, or other legal obligations or mandates, unauthorized use, access, disclosure, acquisition, modification, loss or deletion of information at this level could cause financial loss, damage to Devsinc's reputation, violate an individual's privacy rights or lead to legal action.

4. Responsibilities for Clear Desk and Clear Screen Policy:

All team members of Devsinc are responsible for ensuring compliance with the Clear Desk and Clear Screen Policy.

This includes:

1. All team members should lock away assets (e.g., documents, laptops) when not needed.
2. The reception desk can be particularly vulnerable to visitors. This area should be kept as clear as possible at all times.
3. Copies of documents containing Confidential or Internal Use information should be immediately mobilized from printers/scanners.
4. All concerned team members should ensure the clearing of the desk of all Confidential or Internal Use information at the end of each workday by placing it in the locked file cabinets.
5. Keys used to access the Confidential or Internal Use information must not be left at an unattended work area.
6. The operating systems security lock should be password protected and set to activate when there is no activity for one-two minutes.
7. Passwords must not be documented or written on paper which is accessible to other team members.
8. In case of any violation of the policy, report it to the respective supervisor or the HR department.

By adhering to these responsibilities, team members can uphold the security and confidentiality of company information.

5. Enforcement and Review:

This policy is enforced for all Devsinc team members and violation of this policy may result in disciplinary action, up to and including termination of employment by the HR department in line with the HR policy.

All team members are expected to review and understand this policy and comply with its provisions at all times.

It will be reviewed annually or earlier if necessary.
