Policy & Standard Operating Procedure		DEVSINC your technology partner
Title: Engineering Promotion Ladder	Issued To: HA	

1.0 PURPOSE:

The purpose of this policy is to establish clear guidelines and criteria for promotions to various designations within the engineering division.

2.0 SCOPE:

This procedure applies to all employees from SSE to SPM within Devsinc.

3.0 DEFINITIONS:

First Thread:

- The term 'First Thread' refers to the project initially bid by the company's BD or from external BD and closed by an engineering employee. (First thread designated as 'X' in this document).

  Note: *Project closed refers to the fact that project has been started. Invoice landing does not fall in this term.*

- In case of personal projects, the company's contribution amounts to $5,000 or multiples of $5,000, will also be considered as First Thread. However, for company projects there is no set threshold.

Upsell Conditions:

- In case of personal upsells, if the company's contribution is $2,000 or more in each thread, it will be recognized as an upsell of X.

- An upsell on any project will be considered for promotion only if the employee is part of the team at the time of the upsell. If an upsell occurs before the employee joins the team, it will not be considered as their upsell.

Thread Entitlement:

- SE and above shall be entitled to thread allowance who works with / handles / manages threads. Whether the thread is closed by anyone in their team's hierarchy above or below them. [Ref: Thread Allowance SOP]

- A thread will be considered as Full if the Minimum of 100 hours of work is done in a month.

Closers:

The term 'closers' encompasses two categories: Alpha (α) and Beta (β), where Beta holds a higher rank than Alpha:

- **Alpha (α):** Within the reporting team, anyone in the downward hierarchy closes 1X.

- **Beta (β):** Within the reporting team, anyone in the downward hierarchy closes 1X and also achieves upsell on the same project.

4.0 POLICY & PROCEDURE:

4.1. SE to SSE Promotion:

To get promoted from Software Engineer (SE) to Senior Software Engineer (SSE) ONE of following scenarios needs to be met:

4.1.1. Scenario I:

SE with a minimum of 2.5 years of experience shall be eligible for promotion to SSE). SE previous experience (other than Devsinc) will also be catered in this regard. However, the decision to promote lies with the Cluster Heads / APMs, who may choose to postpone the promotion at their choice.

Process:

- HA shall calculate a total of 2.5 years of experience for the promotion of SE to SSE (15 days before) and send the case request through email carrying details, for approval to Cluster Head or APM (any one of them) regarding promotion, while keeping PSE in the CC.
- If they decide to extend the promotion, next time PSE will originate the request for promotion email to HA with approval of Cluster Head or APM. There must be at least 6 months of gap from previous promotion, if any.
- After approval, HA team will post the promotion on slack and an email will be sent to the employee.
- The status will be manually updated in Maple by HA with effective date. (from the date the email was triggered).

4.1.2. Scenario II:

A promotion to SSE can be suggested by the Cluster Head / APM. However, to be considered for this promotion, the employee needs to have at least 2 years and 3 months of experience. There must be at least 6 months of gap from previous promotion, if any.

Process:

- Cluster Head / APM will calculate a total of min 2.25 years of experience for the promotion of SE to SSE and send the special case request through email carrying details for approval to HA, while keeping PSE in the CC.
- The promotion will be processed by the HA department.
- Later, HA team will announce the promotions in the slack announcement channel.

4.1.3. Scenario III:

To get promoted, SE needs to close at least two first threads (2X). This scenario shall not be required prior experience. As soon as the 2nd thread starts, that person will be eligible for the promotion. There must be at least 6 months of gap from previous promotion, if any.

Process:

- After the 2nd thread starts, PSE shall initiate an email for the promotion keeping Cluster Head and APM in the CC and send it to the HA team. HA will get an approval of Cluster Head & APM for audit purposes.
- After the approval, HA team will update his status and make an announcement of promotion in the slack channel.

4.1.4. Scenario IV:

In this scenario the minimum catered experience would be 1.5 years. In order for this particular early promotion from SE to SSE, team members have to meet below criterias:

a. The team member must be SE 1 or SE 2.

b. He/She must have closed one main thread (1X). Additionally, a complete invoice for one month (30 days) must be landed against that project. (which needs to be checked from Shujaa).

Note: *Personal Project will not be considered as 1X.*

c. He/She must be handling at least 2 threads.

d. There must be at least 6 months of gap from previous promotion, if any.

Process:

- PSE shall initiate an email for the promotion keeping Cluster Head and APM in the CC and send it to the HA team.
- HA will get an approval of Cluster Head & APM for audit purposes.
- After the approval, HA team will update his/her status and make an announcement of promotion in the slack channel.

4.2. SSE to ATL Promotion:

4.2.1. Leadership Evaluation:

Promotion from SSE to Associate Team Lead (ATL) is conditional upon leadership qualities, with a minimum score of 60% in a leadership assessment conducted by the (HA) department based on feedback from seniors and immediate juniors.

4.2.2. Thread Entitlement:

Eligibility for ATL promotion requires entitlement on at least five (5) full time threads.

4.2.3. First Thread:

The candidate must have initiated one (1) main thread or communicated on three (3) upsells in any projects (designated as '1X II 3Y').

4.2.4. Involvement in Upsells:

To be considered for promotion to ATL, an SSE must engage in at least one (1) upsell on any project, either directly involved in communication or as part of the project where an upsell occurs.

4.2.5. Promotion Interval:

There must be a gap of at least 6 months since the SSE's last promotion for consideration for an ATL promotion.

4.2.6. Snapshot Maintenance:

A snapshot of the candidate's performance must be maintained from the last promotion till the date of evaluation. Any time in this tenure, a consecutive three (3) month period will be taken for assessment, during which all of the above conditions must be met.

Note: *Any subtraction made during this period shall impact the overall snapshot.*

Leadership min 60%	Thread	First thread	Upsell	Closers	Technologies	Last tier tenure	Snapshot maintained
Yes	5	1X || 3Y	1	0		6 months	3 months

4.3. ATL to TL Promotion:

4.3.1. Leadership Assessment:

Promotion from TL to Team Lead (AL) is conditional upon leadership qualities, with a minimum score of 60% in a leadership assessment conducted by the (HA) department based on feedback from seniors and immediate juniors.

4.3.2. Thread Requirement:

TL candidates must have entitlement on at least ten (10) full time threads.

4.3.3. First Thread:

ATL should have closed at least 2 main threads (designated as '2X* '). Alternatively, closing 3 upsells on their own main projects will be considered equal to '1X'. Upsells on other projects will not count as '1X' in case of TL promotion.

Note: *Only 1X can be replaced with the alternative approach of 3 upsells. 2X cannot be replaced using this approach.*

4.3.4. Upsell requirement:

ATL needs to close one upsell on his/her main thread and one more upsell on any project he/ she is handling (designated as '1X+1'). If there is no upsell on the main thread, the requirement for that upsell can be replaced by additional '2X' (two main communications).

Only '1X' components can be replaceable with an alternative approach of 2X, the single '1' upsell cannot be replaceable.

Note: *If upsell criteria is not met in order to get promoted then employees will need 4 first threads, i.e., 2X + 2X need to be met to be eligible for promotion*.

4.3.5. Closers Criteria:

One alpha (α) shall be required for the TL promotion.

4.3.6. Promotion Interval:

To be eligible for promotion to TL, there must be a gap of at least 6 months since the ATL's last promotion.

4.3.7. Technology:

TL candidate must oversee utilization of at least two (2) exclusive technologies (ɣ) to qualify for promotion.

4.3.8. Snapshot Maintenance:

A snapshot of the candidate's performance must be maintained from the last promotion till the date of evaluation. Any time in this tenure, a consecutive three (3) month period will be taken for assessment, during which all of the above conditions must be met.

Note: *Any subtraction made during this period shall impact the overall snapshot.*

Note: *All above mentioned conditions will be considered in the snapshot, excluding the condition for closures. If Alpha is present even for a single day, the individual will be eligible for promotion.*

Leadership min 60%	Thread	First thread	Upsell	Closers	Technologies	Last tier tenure	Snapshot maintained
Yes	10	2X*	1X+1****	1α	2ɣ	6 months	3 months

* (3 upsell on your projects will be 1X)

**** if no upsell is happening then 2X will replace 1 upsell. But those 2X will not be considered in the previous criteria, like you need to 2X + 2X to complete this criterion

4.4. TL to APM Promotion:

4.4.1. Leadership Assessment:

A minimum leadership score of 60% is required for promotion to Associate project Manager (APM).

4.4.2. Thread Requirement:

Promotion to APM requires working on at least fifteen (15) full time threads. QA threads will be included in this requirement.

4.4.3. First Thread:

APM candidates must have closed 3 main threads ('3X'). Alternatively, or five (5) upsell on their own projects will be considered equal to '2X'. 3X can be meet either of the following situation:

3X = 2X + 3 Upsells on X

or

3X = 1X + 5 Upsells on X

4.4.4. Upsell requirement:

TL needs to close two (2) upsells on his/her main thread and two (2) more upsells on any project he/ she is handling (designated as '2X+2').

Note: *2X upsells must be on the same project, two (2) upsells on two different projects shall not be acceptable.*

4.4.5. Closers Criteria:

One Beta (β) or three alphas (α) shall be required for the APM promotion.

4.4.6. Technology:

APM candidate must oversee utilization of at least four (4) exclusive technologies (ɣ) to qualify for promotion.

4.4.7. Promotion Interval:

There must be a gap of at least 6 months since the TL's last promotion.

4.4.8. Snapshot Maintenance:

A snapshot of the candidate's performance must be maintained from the last promotion till the date of evaluation. Any time in this tenure, a consecutive three (3) month period will be taken for assessment, during which all of the above conditions must be met.

Note: *Any subtraction made during this period shall impact the overall snapshot*.

Leadership min 60%	Thread	First thread	Upsell	Closers	Technologies	Last tier tenure	Snapshot maintained
Yes	15***	3X**	2X+2	1β || 3α	4ɣ	6 months	3 months

*** (QA threads are also included)
**(5 upsell on own projects will be 2X) or (3 upsell on own project will be 1X)

4.5. APM to PM Promotion:

4.5.1. Leadership Assessment:

A minimum leadership score of 60% is required for promotion to Project Manager (PM).

4.5.2. Thread Requirement:

Promotion to Project Manager (PM) requires entitlement on at least Twenty (20) full time threads. QA threads will be included.

4.5.3. First Thread:

PM candidates must have closed 5 main threads ('5X'). Alternatively, ('5X'). Alternatively, five (5) upsells on their own projects will be considered equal to '2X'.

4.5.4. Upsell requirement:

The APM is required to close a total of seven (7) upsells: three (3) upsells on one main thread, two (2) upsells on another main thread, and an additional two (2) upsells on any project they are handling. This requirement can be represented as ‘3X + 2X + 2’.

4.5.5. Closers requirement:

PM promotion consideration includes two Beta (β) and two alphas (α).

4.5.6. Technology:

PM candidate must oversee utilization of at least six (6) exclusive technologies (ɣ) to qualify for promotion.

4.5.7. Promotion Interval:

There must be a gap of at least one (1) year since the APM's last promotion.

4.5.8. Snapshot Maintenance:

A snapshot of the candidate's performance must be maintained from the last promotion till the date of evaluation. Any time in this tenure, a consecutive three (3) month period will be taken for assessment, during which all of the above conditions must be met.

Note: *Any subtraction made during this period shall impact the overall snapshot*.

Leadership min 60%	Thread	First thread	Upsell	Closers	Technologies	Last tier tenure	Snapshot maintained
Yes	20***	5X**	3X+2X+2	2β & 2α	6ɣ	1 Year	3 months

**(5 upsell on own projects will be 2X) or (3 upsell on own project will be 1X)
*** (QA threads are also included)

4.6. PM to SPM Promotion:

4.6.1. Leadership Assessment:

A minimum leadership score of 60% is required for promotion to Senior Project Manager (SPM).

4.6.2. Thread Requirement:

Promotion to Senior Project Manager (SPM) requires entitlement on at least Thirty (30) full time threads. QA threads will be included.

4.6.3. First Thread:

SPM candidates must have closed 5 main threads ('5X'). Alternatively, ('5X'). Alternatively, five (5) upsells on their own projects will be considered equal to '2X'.

4.6.4. Upsell requirement:

PM must achieve the following upsell targets:

- Three (3) upsells on one main project.
- Two (2) upsells on a second main project.
- Two (2) upsells on a third main project.
- Five (5) additional upsells on any project he/she is handling.

This requirement is designated as '3X + 2X + 2X + 5'.

4.6.5. Closers requirement:

PM promotion consideration includes five (5) Betas (β).

4.6.6. Technology:

SPM candidate must oversee utilization of at least eight (8) exclusive technologies (ɣ) to qualify for promotion.

4.6.7. Promotion Interval:

There must be a gap of at least Two (2) years since the PM's last promotion.

4.6.8. Snapshot Maintenance:

A snapshot of the candidate's performance must be maintained from the last promotion till the date of evaluation. Any time in this tenure, a consecutive three (3) month period will be taken for assessment, during which all of the above conditions must be met.

Note: *Any subtraction made during this period shall impact the overall snapshot*.

Leadership min 60%	Thread	First thread	Upsell	Closers	Technologies	Last tier tenure	Snapshot maintained
Yes	30***	5X	3X+2X+2X+5	5β	8ɣ	2 Year	3 months

*** (QA threads are also included)

Policy & Standard Operating Procedure

The following table provides a comprehensive overview of the promotion criteria across all hierarchies in Devsinc:

	SSE	Associate Team Lead (ATL)	Team Lead	Associate Project Manager (APM)	Project Manager	S. Project Manager
Leadership min 60%		Yes	Yes	Yes	Yes	Yes
Thread	2	5	10	15***	20***	30***
First thread		1X || 3Y	2X*	3X**	5X**	5X
Upsell		1	1X+1****	2X+2	3X+2X+2	3X+2X+2X+5
Closers		0	1α	1β || 3α	2β & 2α	5β
Technologies			2ɣ	4ɣ	6ɣ	8ɣ
Last tier tenure		6 months	6 months	6 months	1 Year	2 Year
Snapshot maintained for last months		3 months	3 months	3 months	3 months	3 months

* (3 upsell on your projects will be 1X)

**(5 upsell on your projects will be 2X)

*** (QA threads are also included)

**** if no upsell is happening then 2X will replace 1 upsell. But those 2X will not be considered in the previous criteria, like you need to 2X + 2X to complete this criterion
