5. Requisition and Approval Process for Exchanging Laptops within the Team: 4
6. Enforcement, Monitoring, and Review: 4

1. Overview:

Laptops are provided to Devsinc employees to facilitate and perform official duties and research. They are provided for legitimate official use in the course of employment for assigned duties only.

2. Scope and Purpose:

The purpose of this SOP is to inform the Devsinc's internal users about the requirements and approval matrix for the replacement and reassignment of laptops provided by Devsinc with the existing ones.

3. Requisition and Approval Process for Replacing the Laptop:

User may initiate the laptop replacement request for the upgradation or swapping with the same model due to hardware issue.

Following process will be followed to process the laptop replacement requests.

1. The user will initiate a ticket on MapleHR under the category of "Laptop" with the purpose and specifications of the required laptop to the IT department, along with the approval of the respective Team Lead or Cluster Head or Head of Department as per the approval matrix*.
2. To process laptop replacement or exchange requests, the IT personnel at MapleHR will ask questions about the project name, thread ID, current laptop model, specific problems or challenges with the current laptop and any technical requirements or technologies needed on the ticket. Users must respond to these questions.
3. The IT personnel will review and execute the ticket on MapleHR if the provided justification is rationalized after examining the existing laptop and the required laptop is available in stock.
4. The user will visit the IT department, receive the new one as a replacement and hand over the existing assigned laptop after taking the proper data backup within 05-working days to IT department.
5. IT personnel will assign the new laptop to the respective user upon handing it over and unassign the previously issued laptop upon receiving it. This will be done according to the above defined TAT for data backup to update the inventory record on MapleHR accordingly.

In case of Procurement of Laptop:

6. If the required exceptional laptop is not available in stock, the IT department must obtain approval from the Head of Department-IT to procure it.
7. IT personnel will raise the ticket to the procurement department to acquire the user-required laptop from the market.
8. The procurement department will procure the user-required laptop and hand it over to the store department, then inform the IT department through MapleHR and complete the ticket.
9. Subsequently, the IT personnel will visit the store to acquire the procured laptop by signing the Goods Received Note (GRN) from the Store Incharge.
10. The IT department will hand over the newly procured laptop to the user, assign it on MapleHR to the respective user and mark the ticket as completed.
11. The user will visit the IT department, receive the new laptop as a replacement and hand over the existing assigned laptop after taking the proper data backup within 5 working days to the IT department.
12. IT personnel will assign the new laptop to the respective user upon handing it over and unassign the previously issued laptop upon receiving it. This will be done according to the above-defined TAT for data backup to update the inventory record on MapleHR accordingly.

Note: *The Cluster Head or Head of Department, as the case may be is responsible for evaluating the necessity and validity of exceptional requests for laptop procurement. If deemed appropriate, the ticket will be forwarded to the HOD-IT for further approval.*

Sr.#	Laptop Replacement Category	Approval Level
1	Laptop swapping with same model due to low performance issue	Team Lead
2	Laptop upgradation	Cluster Head/ Head of Department (HOD)
3	Laptop Hardware issue	IT department- Internal Process
4	Laptop exchange within the team	Team Lead

***Approval Matrix for processing laptop replacement requests**

4. Prohibition of Unauthorized Exchange/Reassignment:

The exchange or reassignment of laptops within teams is strictly prohibited without the approval of the respective Team Lead and informing the IT department. This measure is to ensure the security and proper tracking of company assets on MapleHR.

5. Requisition and Approval Process for Exchanging Laptops within the Team:

1. The user will initiate a ticket on MapleHR under the category of "Laptop" with the purpose and specifications of exchanging the laptop within team to the IT department, along with the approval of the Team Lead.
2. IT personnel will assign the respective laptop to the user and unassign it from the previous user and vice versa to update the inventory record accordingly on MapleHR.
3. Both users are liable to take complete data backup during the exchange of laptops.
4. In cases where the request for a laptop exchange or reassignment is pending or rejected by the Team Lead, Ticket will be marked as completed by the IT department on MapleHR.

6. Enforcement, Monitoring, and Review:

This process is enforced for all employees of Devsinc and monitored by senior management. It will be reviewed annually or earlier if necessary.
