1. Purpose and Scope:

The purpose of this SOP is to establish guidelines and procedures for ticketing on MapleHR ensuring consistent and efficient service by the IT department to Devsinc employees for official purposes only.

2. Responsibilities:

All employees are expected to follow the ticketing process:

3. Ticketing Process:

❖ Ticket Creation on MapleHR:

i. Login to MapleHR and select Tickets, then click on "New Ticket".
ii. A new ticket window will open, and the user needs to select the most relevant and appropriate category along with the priority level as per the requirement.

❖ Ticket Assignment:

iii. Once the selected category is chosen, the ticket will be automatically assigned to the IT department.
iv. Enter the title and description of requirements in the relevant boxes on MapleHR to help the IT department to understand the user's needs.

❖ Ticket Handling:

i. Follow a predefined process for addressing the issue.
ii. Keep the ticket updated with the latest status.
iii. Communicate regularly with the end-user regarding the status of their ticket.
iv. To process the ticket by the IT department, the TAT count will start after the required approval is obtained on the created ticket by the respective user on MapleHR.

❖ Resolution and Closure:

i. Once the ticket is completed, IT personnel will update the ticket accordingly.
ii. If the user's requirement is arranged by the IT department and the user is not responding to collect it, the IT personnel will send 03-reminders on the ticket to the user. After three reminders, the IT personnel will mark the ticket as completed.

Note: *If the user is not responding or the required approval is not taken by the user on the raised ticket, then the IT department will mark the ticket as "completed" on MapleHR after the below-mentioned defined TAT and user will need to create the new ticket if required.*
